LEARNERS!

Kia ora H.W.S Whanau

Welcome to Week 6 of Term One. So much has happened already and there is so much more learning to absorb this term. One question you should be asking yourself is "how can you support learning from home?". The answer is simple. (1) Bring your child/ren to school on time. (2) Ensure your child is at school daily. (3) Ask your tamariki what they learned at school. Take an interest and make a difference.

Kind Regards

Whaea Hirim

SCHOOL CLOSED

Secondary and Primary teachers across NZ will strike on Thursday 16th March.

Please make alternative arrangements for your children.

School will resume on Friday 17th March 2023.

Your support is appreciated.

Te Whare Maia's Learning Corner

Welcome to Te Whare Maia's learning corner. Over the past six weeks we have been focusing on building a positive classroom culture that allows us to be the best learners we can be. We have completed tasks and activities that are helping us to be lifetime learners. So far, my students have discovered that each of them is capable of a lot and the sky's the limit.

In Maths we have been learning the names of our shapes, colours, and numbers.

In Reading we are learning about sounds and how they help us to read. We are reading basic sight words.

In Writing we are learning how to form letters, make spelling attempts with the sounds that we know, and we are at the beginning stages of using spelling aides e.g. colour word cards to write simple sentences.
